

## QUALITY POLICY

WasteChem Pty Ltd (WasteChem) provides a range of products and technologies to the industrial and commercial sectors.

The management is committed to providing services that meet and exceed the requirements of our customers.

Achievement of this objective involves:

- Measuring and monitoring our processes against targets as part of the continual improvement of products, processes, and services to our customers.
- The involvement of the company directors who understand their individual roles in the quality management system.
- Exchange of information with our customers and suppliers to further improve products and processes.
- Provide ongoing training to ensure a competent workforce.
- Review of the quality management system to ensure continuing suitability, adequacy and effectiveness.
- Review of the product and process objectives – stated in the business plan – based on results and trends.

**Murray Lynch**
